BIO

The multidisciplinary artist AFKAR (Madrid 1986) has extensive professional experience in the world of composition, musical production and entertainment. With unique, emotional and high-quality creations, the musician, singer, actor and dancer, enters the most contemporary scene directly with his Theremin, the first electronic music instrument created in 1920, a complex instrument that AFKAR has been playing for almost 20 years and it is now, through his two artistic projects called Essay and Manifesto Futurista when we can enjoy his new compositions interpreted in a way never seen before.
